

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently Amended) A method of delivering a parcel to a recipient, comprising:
 - a) attempting a delivery at a primary location;
 - b) if the delivery to the primary location fails, communicating from a mobile device a notification to the recipient of an upcoming delivery to a preferred redirection location, wherein the preferred redirection location is selected prior to the delivery;
 - c) receiving at the mobile device a response to the notification from the recipient after a failed delivery, wherein the response to the notification is adapted to change the preferred redirection location to an alternative redirection location, wherein the alternative redirection location is different from the primary location and the preferred redirection location; and
 - d) delivering the parcel to the alternative redirection location.
2. (Canceled)
3. (Previously Presented) The method of claim 1, wherein the notification comprises an email to the recipient.
4. (Previously Presented) The method of claim 1, wherein the notification comprises a SMS message to the recipient.
5. (Previously Presented) The method of claim 1, further comprising batching manual records of deliveries.
6. (Canceled)

7. (Previously Presented) The method of claim 1, wherein prior to step (a), the method further comprises registering with a delivery service.

8. (Original) The method of claim 7, wherein the registration step comprises providing the preferred redirection location to the delivery service.

9. (Original) The method of claim 8, wherein the registration step comprises providing the primary location to the delivery service.

10. (Original) The method of claim 8, wherein the registration step comprises generating an identifier unique to the recipient.

11. (Original) The method of claim 8, wherein the registration step comprises generating an identifier unique to the transaction.

12. (Original) The method of claim 9, wherein the primary location is a residential address of the recipient.

13. (Canceled)

14. (Canceled)

Claims 15-21 (Canceled).

22. (New) A system for delivering a parcel to a recipient, comprising:

a) communication means for communicating a notification to the recipient of an upcoming delivery to a preferred redirection location if a delivery to a primary location fails, wherein the preferred redirection location is selected prior to the delivery; and

b) routing means for receiving a response to the notification from the recipient after a failed delivery, wherein the response to the notification is adapted to change the preferred redirection location to an alternative redirection location, wherein the alternative redirection location is different from the primary location and the preferred redirection location.

23.(New) The system of claim 22, wherein the routing means comprises a routing application system and a computer database, and the routing application system is adapted to receive the preferred redirection location and store the preferred redirection location in the computer database.

24.(New) The system of claim 22, wherein the communication means is selected from the group consisting of telephone, e-mail, SMS message and voicemail.

25. (New) The system of claim 22, further comprising a registration computer database for registering with a delivery service.

26.(New) The system of claim 25, wherein the registration computer database is further adapted to accept the preferred redirection location.

27.(New) The system of claim 26, wherein the registration computer database is further adapted to accept the primary location.

28.(New) The system of claim 26, wherein the registration computer database is further adapted to generate an identifier unique to the recipient.

29.(New) The system of claim 26, wherein the registration computer database is further adapted to generate an identifier unique to the transaction.
